Career Objective

Aspiring Software Engineer with hands-on experience in Python, Flask, Django, REST APIs, databases, and AI-powered applications. Passionate about building scalable and efficient software solutions.

EXPERIENCE

Flipkart

Aug 2025 - Jan 2026

Python Development Intern

Virtual

- Developed and maintained scalable web applications using Python and Flask.
- Designed backend functionality, managed MySQL databases, and integrated REST APIs.
- Automated repetitive tasks with Python scripts, improving workflow efficiency.
- Collaborated with developers to test, debug, and deploy reliable applications.
- Optimized application performance by enhancing database operations and API integrations.
- [View Certificate](#)

EDUCATION

Chalapathi Institute of Engineering and Technology

2023 – Present

Bachelor of Technology in Artificial Intelligence & Machine Learning

Guntur, India

- CGPA: 8.03/10

PROJECTS

Personal Portfolio Website | Live Demo

- Developed a responsive portfolio website to showcase my projects and skills.
- Optimized the website for better performance and mobile compatibility.

Employee Leave Management System | Live Demo

- Developed an Employee Leave Management System for employees and administrators.
- Implemented secure login, leave requests, and approval features.

College ERP Portal | GitHub

- Developed a College ERP System to manage student and academic records.
- Added secure login and role-based access for different users.

Automated Document Processing System | GitHub

- Developed an Automated Document Processing System for reading, classifying, summarizing, and generating reports from PDF, DOCX, Excel, and Text documents.

SKILLS

Programming Languages : Python, JavaScript, HTML, CSS

Frameworks & Technologies : Flask, Django, Bootstrap, REST APIs

Database: MySQL, MongoDB

Tools : Git, GitHub, VS Code
