

Sankula Koteswara Rao

Python & Django Developer | Full-Stack Web Developer

Bapatla, Andhra Pradesh, India | +91 9182015717 | srkotes23@gmail.com | linkedin.com/in/sankula-koteswararao | github.com/rkotes23 | kotes23-portfolio-nine.vercel.app

Education

Chalapathi Institute of Engineering and Technology

2023 - 2027

B.Tech in Artificial Intelligence and Machine Learning | CGPA: 8.03

Experience

Python Development Intern

Aug 2025 - Jan 2026

Flipkart Launchpad Student Internship Programme | Remote

- Completed a 6-month Python Development internship organized by Corvyx and Flipkart.
- Applied Python programming, debugging, and software development practices in an e-commerce learning environment.

Projects

Employee Leave Management System (ELMS) | Python, Flask, REST APIs, HTML, CSS, JavaScript

github.com/rkotes23/elms | elms-3.onrender.com

- Built a full-stack leave management system with authentication, employee/manager workflows, and REST API-based leave tracking.

College Website | Python, Django, TypeScript, Vite, Vercel

github.com/rkotes23/college_website | college-website-omega-flax.vercel.app

- Built college-focused web platforms for academic operations, student information, attendance, and administrative records.

Asset Management SPA | React, Vite, Tailwind CSS, Express.js, MongoDB

github.com/rkotes23/asset-management-spa

- Built a single-page asset management application with modern frontend tooling and backend data management.

Personal Developer Portfolio | HTML, CSS, JavaScript, Vercel

github.com/rkotes23/kotes23-portfolio | kotes23-portfolio-nine.vercel.app

- Built a responsive portfolio with project sections, certifications, contact workflow, and an interactive assistant.

Technical Skills

Languages: Python, JavaScript, HTML5, CSS3, MySQL

Backend: Django, Flask, REST APIs, Express.js, Node.js, MongoDB

Frontend and Tools: React.js, Vite, Tailwind CSS, Streamlit, Git, GitHub, Vercel, Render

Certifications

Flipkart Launchpad Internship Programme - Python Development, Jan 2026

Freedom With AI Master Class - AI Tools and Prompt Engineering Workflows, Jun 2025

Achievements

- Published 12 public GitHub repositories across Python, JavaScript, HTML/CSS, and TypeScript.
- Built and deployed live applications using Vercel, Render, and Streamlit.
- Maintained professional LinkedIn presence with 735 followers and 500+ connections.
