EXPERIENCE

Flipkart

June 2025 – February 2026

Python Developer Intern

Remote

- Completed a 6-month remote internship where I built and shipped **4 projects** end-to-end.
- Built a **full-stack Flask web app** with user login, role-based access, and backend REST APIs.
- Wrote **3 Python automation scripts** that cut down repetitive manual tasks for the team.
- Used Git for version control, participated in code reviews, and consistently met project deadlines.

PROJECTS

Personal Portfolio Website | HTML, CSS, JavaScript | [Live Demo](#)

- Responsive personal portfolio site showcasing projects, skills, and contact info hosted on GitHub Pages.

ELMS – Employee Leave Management System | Flask, Python | [Live Demo](#)

- Full-stack leave management app with secure login, role-based dashboards, and REST APIs for leave requests and approvals.

College ERP Portal | Django | In Progress

- ERP portal for Chalapathi Institute with student, faculty, and admin modules each with role-based access and dashboards.

Automated Document Processing System | Python

- Reads PDF, Word, Excel, and text files auto-classifies them into categories, extracts metadata, and generates a PDF report per document.

Customer Feedback Analyzer | Python

- Reads feedback from multiple sources, scores sentiment using keyword rules, flags urgent complaints, and produces a daily summary report.

Inventory Management & Billing System | Python

- Console app to manage products, process orders, apply discounts, generate bills, and view sales reports no third-party dependencies.

EDUCATION

Chalapathi Institute of Engineering and Technology

2023 – Present

B.Tech in Artificial Intelligence & Machine Learning | CGPA: 7.80

Guntur, Andhra Pradesh

- Current Semester: 4-1

SKILLS
